What is Prodentim Supplement?

ProDentim Supplement is a dietary supplement specifically designed to support dental health. It is formulated with a blend of natural ingredients that are believed to promote oral hygiene and support overall gum and teeth health.

What is ProDentim?

ProDentim is an oral probiotic supplement designed to support oral hygiene using a proprietary blend of 3.5 billion CFUs per capsule. It was created by a researcher named Dr. Drew Sutton who purportedly discovered a link between imbalance of mouth bacteria and common dental problems.

The non-GMO probiotic supplement is manufactured in an FDA-registered, GMP-certified facility in the USA. The capsules aim to rebalance the microbiome in your mouth, supporting tooth and gum health from the inside out.

Main Probiotic Strains in ProDentim

ProDentim contains 5 main probiotic strains including:

Lactobacillus Paracasei – Clinically shown to help protect against cavities, gum disease and decay-causing bacteria.

Lactobacillus Reuteri – Shown to reduce bad bacteria growth, fight plaque and support healthy gums.

BLIS K-12 – Helps inhibit bacteria that cause bad breath according to studies.

BLIS M-18 – Limits the effects of harmful enzymes that destroy tooth enamel.

B.Lactis BL-04® – Helps crowd out bad bacteria with beneficial strains. Along with these good bacteria strains, each capsule also contains inulin, a prebiotic that acts as fuel source for the probiotics to thrive.

Prodentim Reviews

Customer feedback on Prodentim Supplement has been largely positive. Prodentim has an average rating of **4.7/5**. Many users have reported improvements in their gum health and overall oral hygiene after incorporating this supplement into their daily routine. However, individual results may vary, and it is important to keep in mind that dietary supplements may not work the same way for everyone.

What are the Prodentim Benefits?

Prodentim Supplement offers several potential benefits for dental health. Some of the key benefits of Prodentim include:

1. **Supports Gum Health:** The blend of ingredients in Prodentim Supplement, such as coenzyme Q10 and vitamin C, may help support gum health and reduce inflammation.
2. **Maintains Healthy Teeth:** The inclusion of zinc and cranberry extract in the formula may contribute to maintaining healthy teeth by preventing plaque formation.
3. **Promotes Oral Hygiene:** The probiotics present in Prodentim Supplement may help maintain a healthy balance of oral microflora, which is essential for good oral hygiene.

Prodentim Side Effects

Prodentim Dental Supplement is generally considered safe for most individuals when taken as directed. However, it is always recommended to consult with a healthcare professional before starting any new dietary supplement, especially if you have any pre-existing medical conditions or are taking medication.

What are the Ingredients in Prodentim?

The Prodentim Supplement contains a unique combination of natural ingredients that work together to support dental health. Some of the key ingredients include:
